

Home Inspection

What to Expect:

A home inspection is a visual assessment of a house's physical structure and mechanical systems, including the roof, ceilings, walls, floors, windows and doors. The inspector will check that major appliances are functional, scrutinize the heating and air-conditioning system, examine the plumbing and electrical systems and may even poke around in the attic and basement.

The goal of a home inspection is to uncover issues with the home itself.

An inspection is not a pass-fail exam. No fixes are mandatory after a home inspection, though it may uncover issues that prompt further negotiations.
